London, UK - 21st September, 2022 - Vortexa, the leading global technology analytics company providing real-time views of Energy Flows, Freight Fundamentals and Inventories is delighted to announce the appointment of former VP of Enterprise Sales at Apple, Emilio Umeoka, to the board of Vortexa.

Emilio grew up in Sao Paulo, Brazil, and attended Texas A&M, where he graduated with a BS degree in Petroleum Engineering. He is fluent in Portuguese and Spanish. Emilio is a global executive with a track record of distinguished leadership in the technology industry working in leadership roles for technology giants: Apple, Microsoft, Splunk, Juniper Networks, and Compaq.

Emilio has experience in high-growth startups, opening new markets, launching new channels and programs and expanding market share and growth in large established companies. Emilio has managed through acquisitions, building new cultures while expanding revenue and growth simultaneously. His inclusive approach to leadership has been key to his high-performance teams' successes. He is a member of the Corporate Executive Initiative (CEI), the advisory board for Ascend and a Fellow at Stanford DCI (Distinguished Careers Institute). CEI focuses on developing senior talent within the Pan-Asian corporate community and building a world-class business forum of Pan-Asian corporate leaders to enhance their opportunities to compete for the highest positions in Fortune 500 companies.

Emilio Umeoka: "I am very excited to join the Vortexa Board of Directors and have been extremely impressed with how far and how fast Vortexa has been expanding its technology and market presence globally as well as the significant value it delivers to its customers. I am very much looking forward to working closely with the Board and Executive team at Vortexa."

Fabio Kuhn, CEO of Vortexa: "It is a true privilege for us to have the opportunity to work with Emilio at our Board. His one-of-a-kind background in commercial tech strategy together with his early days in the energy industry will be invaluable to Vortexa as we scale our global expansion."
